How to review

Use PDF bookmarks or the following index to jump to each screen.

Long pages continue over several overlapping sections at readable size.

Use the PNG files or local HTML gallery for original-resolution inspection.

Compare role-specific controls and normal/wide desktop views.

Review scope

Layout, navigation, clarity, consistency, financial-table readability and task visibility.

No production rollout, provider activation or visual redesign was performed.

Forecasting redesign is deferred. Screenshot evidence alone is not interaction testing.

ADMIN SETUP

Reporting setup

Monthly reports

Set up report sections and cash-flow treatments once, then review exceptions as needed.

New draft — changes affect reports only after you submit setup.

1. Reporting period

Setup effective from: August 2026

Reporting year starts in: January

January is the initial convention. Confirm the organization's reporting year; account balances always follow their actual dates.

2. Cash accounts and statement mappings

Choose report sections and cash-flow treatments from the organization's accounting policy. Posted amounts are read only.

Cash account	Account / type	Statement section	Cash-flow treatment
☐	**S5ACCUMULATED · Synthetic S5 accumulated**	Asset	Investing activity

☐	**S5ACCUMULATED · Synthetic S5 accumulated** Asset	Asset	Investing activity
☑	**S5BANK · Synthetic S5 bank** Asset	Asset	Choose treatment (cash accounts: not needed)
☑	**S5BANK2 · Synthetic S5 bank2** Asset	Asset	Choose treatment (cash accounts: not needed)
☐	**S5CONTROL · Synthetic S5 control** Asset	Asset	Operating asset / working capital
☐	**S5EQUIPMENT · Synthetic S5 equipment** Asset	Asset	Investing activity
☐	**S5PAYABLE · Synthetic S5 payable** Liability	Liability	Operating liability / working capital
☐	**S5EQUITY · Synthetic S5 equity** Equity	Equity	Financing activity
☐	**S5INCOME · Synthetic S5 income** Income	Income	Operating income or cost
☐	**S5DEPRECIATION · Synthetic S5 depreciation** Expense	Expense	Noncash cost (for example depreciation)
☐	**S5EXPENSE · Synthetic S5 expense** Expense	Expense	Operating income or cost

Explanation if the cash-account set changes

3. Exceptional transactions

Ordinary mapped activity needs no extra entry. Use these controls only when the report identifies an opening/closing entry or an ambiguous movement.

- ▶ **Opening / closing reporting purposes**
- ▶ **Mixed cash movements and advance-funded investments**
- ▶ **Noncash reclassifications**

Find a Journal number in Journal History. Select its recorded lines; this setup never changes the original transaction. Cross-transaction investing allocations must trace the actual advance release to its supported purchase.
